

CL4P

Palm / Fingerprint Time Attendance & Access Control

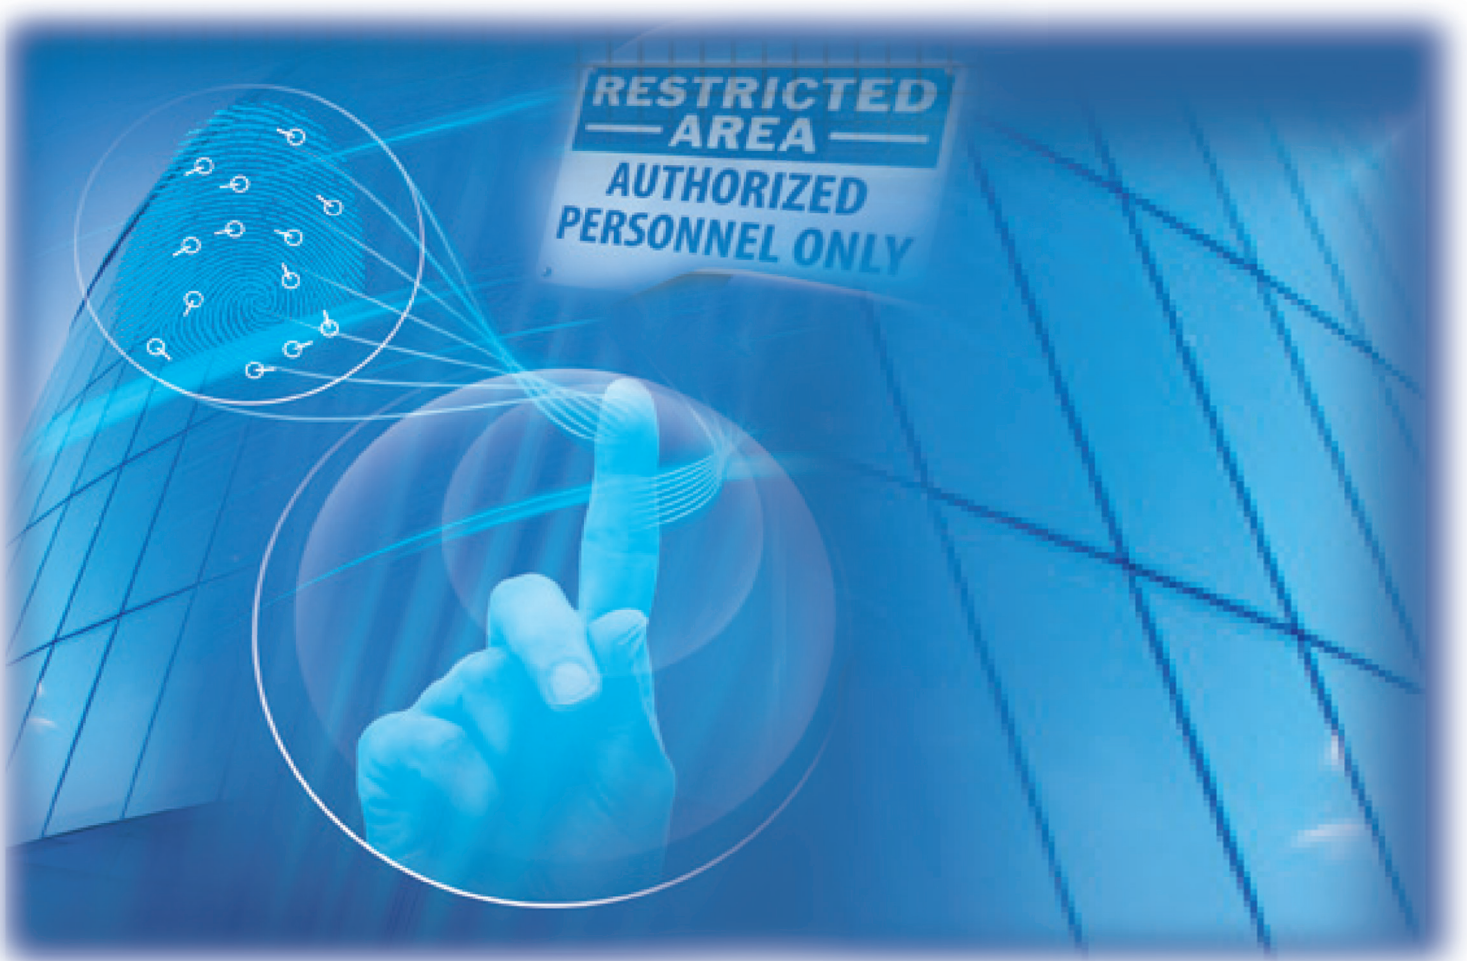

CL4P is a 4.3 inches color touch screen biometric terminal for Time Attendance & Access Control applications. it adopts Palm & fingerprint collector for excellent recognition. Users can manage data via TCP/IP and USB host Port for data up/download to avoid the risk of accidental deletion.

Features

- **USB:** Support USB host connection to achieve data backup and management while the device is standalone.
- **Patterned & Touch Chip Sensor:** Excellent recognition rate. Dry, moist, or rough fingerprints can work well.
- World class algorithm high speed and accurately identify Palm.
- Large Fingerprint Capacity of 10,000 fingerprint, & 200,000 transaction Logs.

Specifications

User Capacity	3000
Palm Capacity	3000
Fingerprint Capacity	10,000
Id Card Capacity	3000
Record Capacity	200,000
Display	4.3" color Touch screen
Communication	TCP/IP, USB-host
Standers Functions	Palm / Fingerprint, RFID Card, Pin Code, TCP/IP, USB
Optional Functions	ID
Access Control Interface	3rd Party Electric Lock, Exit Button
Power Supply	12V DC / 2A
Operating Temp.	0°C-45°C
Operating Humidity	< 90 % RH
Colour	Black
Language	English
CPU	1 GHz
Battery	Built-in Battery
Weigand	Input & Output
